Erasmus School of Economics
Erasmus University Rotterdam
Burgemeester Oudlaan 50
3062 PA Rotterdam, Netherlands

Citizenship: Belgium and UK
Email: leduc@ese.eur.nl

RESEARCH INTERESTS

Primary: Labour Economics, Public Economics

Secondary: Applied Microeconomics, Health Economics, Economics of Education

CURRENT POSITION

Since 2022 Postdoctoral Researcher, Erasmus University Rotterdam.

EDUCATION

2017-2022	PhD in Economics, Université Libre de Bruxelles.
2022	Visiting Scholar, CREST (ENSAE Paris). Sponsor: Arne Uhlenhorff.
2021	Visiting Scholar, Erasmus University Rotterdam. Sponsor: Anne Gielen.
2014 - 2016	MSc Business Economics, Université libre de Bruxelles, <i>Magna cum laude</i>
2015	Exchange student, Universidad de Chile
2011 - 2014	B.Sc. Economics, Université libre de Bruxelles, <i>Cum laude</i>

PAST POSITIONS

2017 – 2022	PhD Researcher, Université libre de Bruxelles (Dulbea)
2016 – 2017	Consultant – PriceWaterhouse Coopers (Department: Governments, Infrastructure and Network Industries)

RESEARCH

WORKING PAPERS

De Brouwer, O., Leduc, E., & Tojerow, I. (2019). **The Unexpected Consequences of Job Search Monitoring: Disability Instead of Employment?** *IZA Discussion Paper No. 12304*. – *Conditionally accepted at the Journal of Public Economics*

Abstract: We study the effect of job search monitoring (JSM) on individual labour market outcomes of the long-term unemployed, with a special focus on disability effects. Exploiting the implementation of a JSM program targeted at jobseekers below the age of 49, we set up a regression discontinuity design that credibly identifies the causal effect of the program on employment in comparison to transition to disability and other social welfare programs over a three-year span following the start of JSM. While we find a limited short-term positive effect of JSM on employment, we find a large long-term spillover effect on exits to disability. This spillover effect does not extend to other welfare programs. Taken

together, our results show that the implementation of JSM could constitute a viable explanation for the rise of the disability rate amongst unemployed workers. Expanding our results to the national level, we estimate that between 2007 and 2012, JSM decreased aggregate UI transfers by 7.8% and increased aggregate DI transfers by 6.6% for individuals aged 40-49.

Leduc, E., & Tojerow, I. (2020). Subsidizing Domestic Services as a Tool to Fight Unemployment: Effectiveness and Hidden Costs. IZA Discussion Paper No. 13544. – R&R at Labour Economics

Abstract: We study the effects of wage subsidies for the sector of domestic services, an increasingly popular policy to create employment opportunities for low-skilled workers. Using Belgian administrative data and a difference-in-differences approach, we show that domestic service subsidies are effective in increasing employment in the targeted sectors, but entail important unintended budgetary costs in the form of increased Disability Insurance spending. We complement these findings with an event study difference-in-differences approach which allows us to uncover how working in the jobs created by these programs affects the labour market outcomes of subsidized workers.

WORK IN PROGRESS

“Training Unemployed Workers to Address Labour Shortages: An Experimental Study on Information Barriers and Employment Effects” With Ilan Tojerow

Abstract: We explore whether better information can induce more jobseekers to reskill in occupations that are in shortage. We implement a large-scale field experiment in cooperation with a Public Employment Service, in which we inform 100,000 recently unemployed jobseekers about shortage occupations and available training programs. Using survey and administrative data, we estimate the effect of the information intervention on training intentions and enrolment, as well as job search and employment. Our findings show that the treatment email increased intentions to enrol in trainings and participation in information sessions about trainings. However, the information did not substantially increase training enrolment, or affect job search behaviour and employment outcomes.

GRANTS AND AWARDS

2022	Research Visit Fellowship, <i>Fonds National de la Recherche Scientifique</i>
2021	Research Visit Fellowship, <i>Fonds National de la Recherche Scientifique</i>
2019	PhD fellowship (4 years), <i>Fonds National de la Recherche Scientifique</i>

TEACHING

2018 – 2021	ECON-S-301 Introduction to Public Economics, Teaching Assistant, ULB
-------------	--

ACADEMIC PRESENTATIONS

2023	Turku School of Economics Research Seminar, Erasmus University Rotterdam Brown Bag Seminar.
2022	Ghent University Internal Seminar, Belgian Day of Labor Economists, Field Days, Université Saint-Louis - CERECE Seminar, Dulbea-ROA Workshop on Experiments on Information Frictions and Job Search, European Economic

	Association (EEA-ESEM) Annual Conference, European Association of Labour Economics (EALE) Annual Conference, 4th QMUL Economics and Finance Workshop for PhD & Post-doctoral Students, University of Antwerp Internal Seminar, CREST Firms and Markets Seminar, CEBRIG PhD Seminar.
2021	European Association of Labour Economics (EALE) Annual Conference, 20th Journées Louis-André Gérard-Varet, 34th Annual Conference of the European Society for Population Economics, 26th Annual Meeting of the Society of Labor Economists (SOLE), IES Applied Economics Conference, Erasmus School of Economics Brown Bag Seminar, ECARES Internal Seminar, National Bank of Belgium Internal Research Seminar, KU Leuven Research Seminar, Luxembourg Institute of Socio-Economic Research Internal Seminar, INAMI Webinar.
2020	European Economic Association (EEA-ESEM) Annual Conference, 42ème Journées des Economistes de la Santé Français, Institute of Economic and Social Research (UCLouvain) Lunch Seminar, Seminar of the Expertise Center of the National Institute for Health and Disability Insurance.
2019	CEB Brown Bag Seminar, DULBEA Workshop on the Economics of Disability.

OTHER PROFESSIONAL ACTIVITIES

2022	Co-organizer of the Dulbea-ROA Workshop on Experiments on Information Frictions and Job Search
2019	Member of the Local Organizing Committee of the 24 th Spring Meeting of Young Economists
